Basics of Evaluation & Management (E/M) Services

The 1997 guidelines are formatted as organ systems with corresponding, bulleted items referred to as "elements." 3 Additionally, a few elements have a numeric requirement to be achieved before satisfying the documentation of that particular element. For example, credit for the "vital signs element" (located within the constitutional system) is only awarded after documentation of three individual measurements (e.g. blood pressure, heart rate, and respiratory rate).
