This White Paper, developed by the Industrial Ventilation Committee of the American Conference of Governmental Industrial Hygienists (ACGIH®), originates from concern about the proper use of ventilation controls in industrial workplaces where SARS-CoV-2 (the Coronavirus responsible for COVID-19) is potentially present.

### Ventilation for Industrial Settings during the COVID-19 ...

Industrial ventilation generally involves the use of supply and exhaust ventilation to control emissions, exposures, and chemical hazards in the workplace. Traditionally, nonindustrial ventilation systems commonly known as heating, ventilating, and air-conditioning (HVAC) systems were built to control temperature, humidity, and odors.
