ISDS - International Society for Dialogical Science - Home

Abstract. The multiplicity of the dialogical self (Hermans, 1999, 2002) is a developmental challenge and opportunity. Being stretched between opposites or conflicting I-positions may be painful and make one long for peace and unity. On the other hand, discovering one's inner multiplicity can be enriching and fulfilling when one learns to surrender to its totality, in which imperfection has ...

Compositionwork: A Method for Self Exploration and ...

The dialogical self is a psychological concept which describes the mind's ability to imagine the different positions of participants in an internal dialogue, in close connection with external dialogue. The "dialogical self" is the central concept in the dialogical self theory (DST), as created and developed by the Dutch psychologist Hubert Hermans since the 1990s.
