## **Tow Dolly User Instructions | U-Haul Blog**

A tow dolly is a small, 2-wheel trailer designed to carry the front wheels of your car while the rear wheels remain on the road surface. Because most modern cars are front wheel drive, this means the drive train remains motionless. No mileage is accumulated on the odometer, and no wear is taking place on the car.

## **Choosing The Right RV Tow Dolly So You Can Tow A Car**

...

A tow dolly requires regular maintenance on the frame, wheels, and tires. You will need two sets of safety cables; one to attach the dolly to the vehicle and the other to attach the dolly to the coach. It is also important to note that tie-down straps are not a good option because they are not strong enough to handle the weight of the tow dolly.
