Model 172 And
Skyhawk Owner
Manual

The Cessna 175 was created to fill the void between the slower 172 and the costlier 182. Production began in 1958 and ended in 1962, with 2,106 built. Pilots did not trust longevity of the higher speed, geared Continental GO-300 engine, even with a promised a 15-mph edge on the 172 and better short-field landing and takeoffs.
