Math is used in all the sciences, including high school chem class. To learn chem, you need to understand algebra, geometry, and some trig, as well as be able to work in scientific notation and perform unit conversions.

Overview of High School Chemistry Topics - ThoughtCo

When I was a kid, I was fortunate to have an old and well-supplied chemistry kit. I think my mom

found it at a garage sale. It was GREAT! I had glassware, a bunsen burner, and dozens of chemicals! I even had a thick manual that had extensive instructions. Unfortunately, the manual was written for high school kids and I was 10 years old.

6 Best Chemistry Sets For Kids in 2020 - The High Tech Society

All high school notes Chemistry notes from Form 1 to Form 4. Chemistry Form 1 Notes (5) This category contains Chemistry Form 1 notes as aggregated from the various high school approved text books, including KLB, etc. It covers the entire Chemistry form 1 syllabus, for the preparation of national and local exams.

Chemistry Form 1 - Form 4 notes

Some are materials that were used to teach MIT undergraduates, while others were designed specifically for high school students. The research and teaching in the Chemistry Department cover such topics as biological chemistry, inorganic chemistry, organic chemistry, and physical chemistry.
