Dot Commands In DOS you wrote commands following the famous dot prompt. The same applies to dBASE PLUS except that commands are entered in the upper area of the Command Window. Results are displayed in the lower area (referred to as the Output Pane).

Upgrading from DOS - dBase, LLC.

Could you explain me how to check the pressed key from the beginning, from the dBase dot prompt? I got two books: "Using dBase III Plus" writing by E. Jones - 1987 where INKEY() doesn't exist (see attached index image), and "dBase III / III Plus - Instant Reference" by Alan Simpson - 1988, where INKEY() do appear, but I wasn't able ...

Recognize INKEY() - dBASE Inc.: dBASE - Tek-Tips

It used a runtime interpreter architecture, which allowed the user to execute commands by typing them in a command line "dot prompt." Similarly, program scripts (text files with PRG extensions) ran in the interpreter (with the DO command). dBase programs were easy to write and test; a business person with no programming experience could develop applications.
