Research is vital! Identify the markets with a little desk research. Find the consumption / import figures of products similar to your own and the economic growth rate of a potential new market. Look up the demographics, cultural and religious practices and your potential competition. 2. Have a plan. Your export plan should include your people.

10 steps to successful exporting - Chamber International

In this equation, exports minus imports ($X - M$) equals net exports. When exports exceed imports, the net exports figure is positive. This indicates that a country has a trade surplus. When exports...
