Reading Exterior Building Enclosures: Design Process and ...

The long-term performance of any exterior building enclosure assembly is directly related to the level of planning implemented during the initial phases of the design process. It requires the combined efforts of the owner, building enclosure commissioning provider (BECxP), design team, and contractors. Commissioning consultation services typically begin during the creation of the owner's project requirement (OPR) document.

Building Enclosures: Understanding the commissioning process

vide complete enclosure design. Some exterior building enclosures are fairly sim-ple. However, with higher performance expectations, emerging technologies, and regulatory standards, pro-posed designs may require a higher level of detail, documentation, and construction technology to exe-cute. As the old English proverb states: "You have to
