After performing the prerequisites and completing the installation, launch the Financial Reporting Studio. You must provide your user ID, password, and the Server URL. Derive the Server URL information by following the steps: Open Navigator > Financial Reporting Center > Open Workspace for Financial Reports.

Configure Financial Reporting Studio Client for Users

Financial Reporting Studio is a powerful tool for designing and displaying analytic data. A user can leverage this tool to create typical financial reports such as a P&L or balance sheet, or they can use it to create reports with nontraditional formats, depending on their business needs. FR Studio goes hand in hand with Oracle Hyperion Planning and Oracle PBCS (Planning and Budgeting Cloud Service), which are dynamic, multidimensional applications that businesses use for planning and budgeting.

Financial Reporting Studio - Get better reports

Hyperion Financial reports can be developed on a tool called Hyperion Financial Reporting Studio. This is the only tool to build or edit a Hyperion Financial report. Users are also able to view, delete and print FR through FR Studio. The web client, Workspace, is used to rename, delete, view, and print the Hyperion Financial reports.
