## **Freud: General Psychological Theory: Freud, Sigmund ...**

General Psychological Theory. Freud's stress on the sexual aspects of man's nature was not the only reason for his unpopularity at the turn of the century. He was attacked just as severely for daring to build his science on the basis of hypotheses that were contradictory to many scientific views then current.

## **General Psychological Theory by Sigmund Freud**

In fifteen essays, sigmund freud explains his most controversial theories exposing the darkest corners of the human psyche. Best known for his research into the unconscious mind, Sigmund Freud challenged the mores of conventional American society during the early twentieth century. This collection presents many of Freud's revolutionary ideas, showing how his theories changed the way people think about their emotions and actions, opening a rich dialogue about the methods and science of the brain.

## **General Psychological Theory Quotes by Sigmund Freud**

Freud's theory provides one conceptualization of how personality is structured and how the elements of personality function. In Freud's view, a balance in the dynamic interaction of the id, ego, and superego is necessary for a healthy personality. While the ego has a tough job to do, it does not have to act alone.
