G4ek Engine

The first α -series engine marketed was the α -1.5D (Engine code: G4EK). It was a single overhead camshaft (SOHC), twelve (12) valve, inline-four, petrol-based and naturally aspirated version. An α -series inline-four, dual overhead camshaft (DOHC), four valve per cylinder version later developed from the α -1.5D.

Hyundai Alpha engine - Wikipedia

PROFessional Powertrain produces engines to standards that meet or exceed original equipment (OE) specifications. Furthermore, because of advancements in the years since the original engine design, a remanufacture can add improvements that will produce a more efficient and durable engine. All engines are manufactured under ISO 9001:2000 standards.

Info. For many car parts, such as engines and cylinder heads, it is important that you specify the correct motor code on your request. The engine code is usually stamped somewhere into the engine block. The first 4 or 5 letters / numbers usually provide enough technical information for a car parts supplier to find the right engine related car part for you.
