The free Kindle books here can be borrowed for 14 days and then will be automatically returned to the owner at that time.

### John Deere No Till Drill

The no-till openers work not only in no-till conditions, but also in clean-till conditions. There are 5.1 cm (2 in.) of free travel in the opener before spring down pressure takes over, allowing the opener to move over individual rocks and minimizing the chance of the gauge wheels bulldozing soil in soft or mellow conditions.

Overview The 1590 No-till Drill provides up to 425 pounds of down pressure and 7-degree angle, the 1590's openers can cut through the toughest residue or thickest soils. Residue flows smoothly and easily, thanks to plenty of clearance between the blade, seed tube, and arm, while the unique seed boot design improves accuracy and durability.

Seed Bounce Flaps (Tabs): The standard seed flaps that come with John Deere 50 series, 60 series, 90 series no till drills are designed to keep seeds from bouncing out of the furrows during planting. But because of their straight design, they leave a triangular gap in the soil, from which seeds do bounce out.
