The Lean Daily Management System (LDMS): Using Structure to Engage Employees and Optimize Value. In the late 1990s, when Kaufman Global developed the Lean Daily Management System ® (LDMS ®), we recognized that "Lean" as a method for improving business was often viewed as a set of tools aimed at machines and inventory. On the surface, and in the simplest of explanations, it was considered to be a group of useful techniques that could be "directed and applied".

### Lean Daily Management System - Kaufman Global

Daily Management has become an important communication tool in the ICU, giving autonomy to team members and providing a way to anticipate and solve problems. Six months after the implementation started, the ICU reduced the number of delayed discharges from 36% to 8%. The average delay dropped from 92 minutes to 50 minutes - a 53% reduction.

### Daily management in the ICU - Planet Lean

The Daily Management System gives the leader many opportunities to see the status of performance, identify issues, and direct or support their team's improvement. The long-term success of Daily Management relies on building a continuous improvement culture, and this begins with developing people.
