Procurement risk is the potential for failures of a procurement process designed to purchase services, products or resources. Common types of procurement risk include fraud, cost, quality and delivery risks. In many cases, procurement risks are also compliance risks as purchasing practices are typically government by anti-corruption laws.

What is Procurement Risk? - Simplifiable

In addition to the list of differences mentioned above, procurement vs. purchasing includes another major difference. Purchasing focuses on short-term goals such as fulfilling the five rights in a transaction (right quality, right quantity, right cost, right time, and right place), whereas procurement management focuses on strategic, long-term goals like gaining a competitive advantage or ...
