Media bias, perspective, and state repression: The Black ...

Media bias is the bias or perceived bias of journalists and news producers within the mass media in the selection of many events and stories that are reported and how they are covered. The term "media bias" implies a pervasive or widespread bias contravening the standards of journalism, rather than the perspective of an individual journalist or article. The direction and degree of media bias in various countries is widely disputed.

Media bias - Wikipedia

According to Carissa Wolf, freelance journalist and Boise State sociology lecturer, the switch to digital journalism in the early 1990s had a huge impact on the way people consume media. "I became a journalist in a time when people were still getting newspaper subscriptions, and it was very predictable in people's lives," Wolf said.

The state media usually have less government control in more open societies and can provide more balanced coverage than media outside of state control. State media outlets usually enjoy increased funding and subsidies compared to private media counterparts, but this can create inefficiency in the state media.
