Patent Cooperation Treaty Pct

The Patent Cooperation Treaty (PCT) makes it possible to seek patent protection for an invention simultaneously in each of a large number of countries by filing an "international" patent application. Such an application may be filed by anyone who is a national or resident of a PCT Contracting State. It may generally be filed with the national patent office of the Contracting State of which the applicant is a national or resident or, at the applicant's option, with the International Bureau ...

Patent Cooperation Treaty (PCT)

The Patent Cooperation Treaty (PCT) assists applicants in seeking patent protection internationally for their inventions, helps patent offices with their patent granting decisions, and facilitates public access to a wealth of technical information relating to those inventions. By filing one international patent application under the PCT, applicants can simultaneously seek protection for an invention in a large number of countries.

PCT - The International Patent System

The Patent Cooperation Treaty (PCT) is an international treaty with more than 150 Contracting States. The PCT makes it possible to seek patent protection for an invention simultaneously in a large number of countries by filing a single "international" patent application instead of filing several separate national or regional patent applications. The granting of patents remains under the control of the national or regional patent offices in what is called the "national phase".

Patent Cooperation Treaty | USPTO

The Patent Cooperation Treaty (PCT) is an international patent law treaty, concluded in 1970. It provides a unified procedure for filing patent applications to protect inventions in each of its contracting states. A patent application filed under the PCT is called an international application, or PCT application .

"Patent Cooperation Treaty - Implementation v. U.S. Law, 5 ...

The roots of the Patent Cooperation Treaty (PCT) go back to 1966, when the Executive Committee of the Paris Convention for the Protection of Intellectual Property called for a study of how to reduce, for applicants and patent offices, the duplication of effort involved in filing and obtaining patent applications for the same invention in different countries.

Patent Cooperation Treaty | USPTO

The Patent Cooperation Treaty (PCT) is important for patent law because it allows patent-seekers to file an international application. The PCT is open to countries that were a party to the 1883 Paris Convention for the Protection of Industrial Property. The PCT concluded in 1970, then amended in 1979, and modified twice, in 1984 and 2001.
