The purpose of SFPE is to advance the science and practice of fire protection engineering and its allied fields, to maintain a high ethical standard among its members and to foster fire protection engineering education. [Learn More.](#)

Engineering Jobs - SFPE Career Connect

In this study, a 100 m² steel tank was used to simulate transformer oil fires, with an aim of investigating the burning characteristics of a large-scale pool fire. To recover a real thermal state of transformer oil in operation, a heating system was employed to raise the initial fuel temperature. In total, three fire-extinguishing tests were performed using two delivery methods, i.e., a hand
