The Origins of AIDS: Pepin, Jacques: 9780521186377: Books ...

AIDS is caused by a human immunodeficiency virus, which originated in non-human primates in Central and West Africa. While various sub-groups of the virus acquired human infectivity at different times, the global pandemic had its origins in the emergence of one specific strain - HIV-1 subgroup M - in Léopoldville in the Belgian Congo in the 1920s. There are two types of HIV: HIV-1 and HIV-2. HIV-1 is more virulent, easily transmitted and is the cause of the vast majority of HIV ...

Q&A with Jacques Pepin | Harvard AIDS Initiative

Overall, Jacques Pepin has written an excellent scientific account of the origins of AIDS. He is a mix of scientist, historian, sociologist and detective. For that slender sub-group, the wise, it would be an excellent text to prepare for the next pandemic. 6-stars.
