Understanding Policies, Standards, Guidelines, and Procedures

This lesson focuses on understanding the differences between policies, standards, guidelines and procedures. A policy is something that is mandatory. A standard is not something that is mandatory; it has more to do with how we decide what a policy after offers and this can be related to the industry (e.g., healthcare, financial systems or...

Understanding Policies, Standards, Guidelines and Procedures

As you can see, there is a difference between policies, procedures, standards, and guidelines. Each has their place and fills a specific need. Policies are the data security anchor—use the others to build upon that foundation. Keep in mind that building an
