deliverable.

Project Issue Management: Identifying and Resolving Issues

We're asked to identify the percent, amount, and base in this problem. And they ask us 150 is 25% of what number? So another way to think about it is 25% times some number. So I'll do 25% in yellow. And 25% times some number is equal to 150. So the percent is pretty easy to spot. We have a 25% right over here. So this is going to be the percent.

Identifying percent amount and base (video) | Khan Academy

Every model of problem solving emphasizes the importance of information, knowing as much about the problem as possible: The history of the problem, the causes and origin of the problem, previous solutions that worked or failed, the scope of the problem, the impact of the problem.
